

## World War I Weapon Project

The students are to create an informational poster of a World War I weapon. The students are to place at least 5 facts about their weapon on a poster board that is cut and decorated to look like that weapon. Students will be given time to research weapons on the internet on selected days in class. This project will be due October 14!

This is an in and out of class project. Research can be completed in class, but also at home! Foam board would be the best type of material to place facts. Creativity is the key- Just make sure it looks nice and has at least 5 facts! The following website will give many great ideas!  
<http://www.firstworldwar.com/weaponry/index.htm> This project is worth 100 points! (Following Directions, Creativity, Poster, Facts, Sources- 20 points per each category)
